1st International Management Conference: Management Dynamically in the Oil and Gas Industry

Regional Center (Kuwait)

&

AETC Training Center (Dubai)

Conference Introduction

This (Management Dynamically in the Oil and Gas Industry) international conference has been specifically designed for managers in the dynamic and agile work environment of Oil and Gas. It will provide essential leading-edge tools, techniques, skills, and psychological insight to lead in today's world, ready for tomorrow. Never has the industry faced challenges so rapid and of high impact requiring exceptional management talent and focus. This highly engaging, intensive, and interactive international conference has been developed to accelerate your management development and potential to manage in the agile and highly active Oil, Gas and Petrochemical environment. The primary focus will be to develop you as a manager to take on the challenges being faced in the industry today, and future proof your development. This will involve identifying your Management approach using a Management Profile, the importance of Management values & behaviors, the psychology and science of management, influence, and Emotional Intelligence. It will focus on interpersonal skills, performance management, radical innovation, rapid decision-making techniques, accountable decision making, as well as management in multi-diverse/cultural workspace.

This International Conference will highlight:

- The key factors to be a management and how these can be developed and maximized management profile.
- Powerful tools and techniques to improve rapid problem solving, decision making and increase innovation and creativity.
- Adopt psychological insights to improve interpersonal, self-control, conflict, and crisis situations.
- How to maximize the performance of yourself and others to achieve excellence.
- Develop a culture that embraces change and takes pro-active approaches to always stay ahead of the game.

Conference Objectives

At the end of participate (Management Dynamically in the Oil and Gas Industry) Conference, you will:

- Know how to evaluate, define, and understand your management style profile.
- Apply psychological techniques to manage and influence others.
